

# EQUAL PAY DAY FOR WOMEN OF COLOR

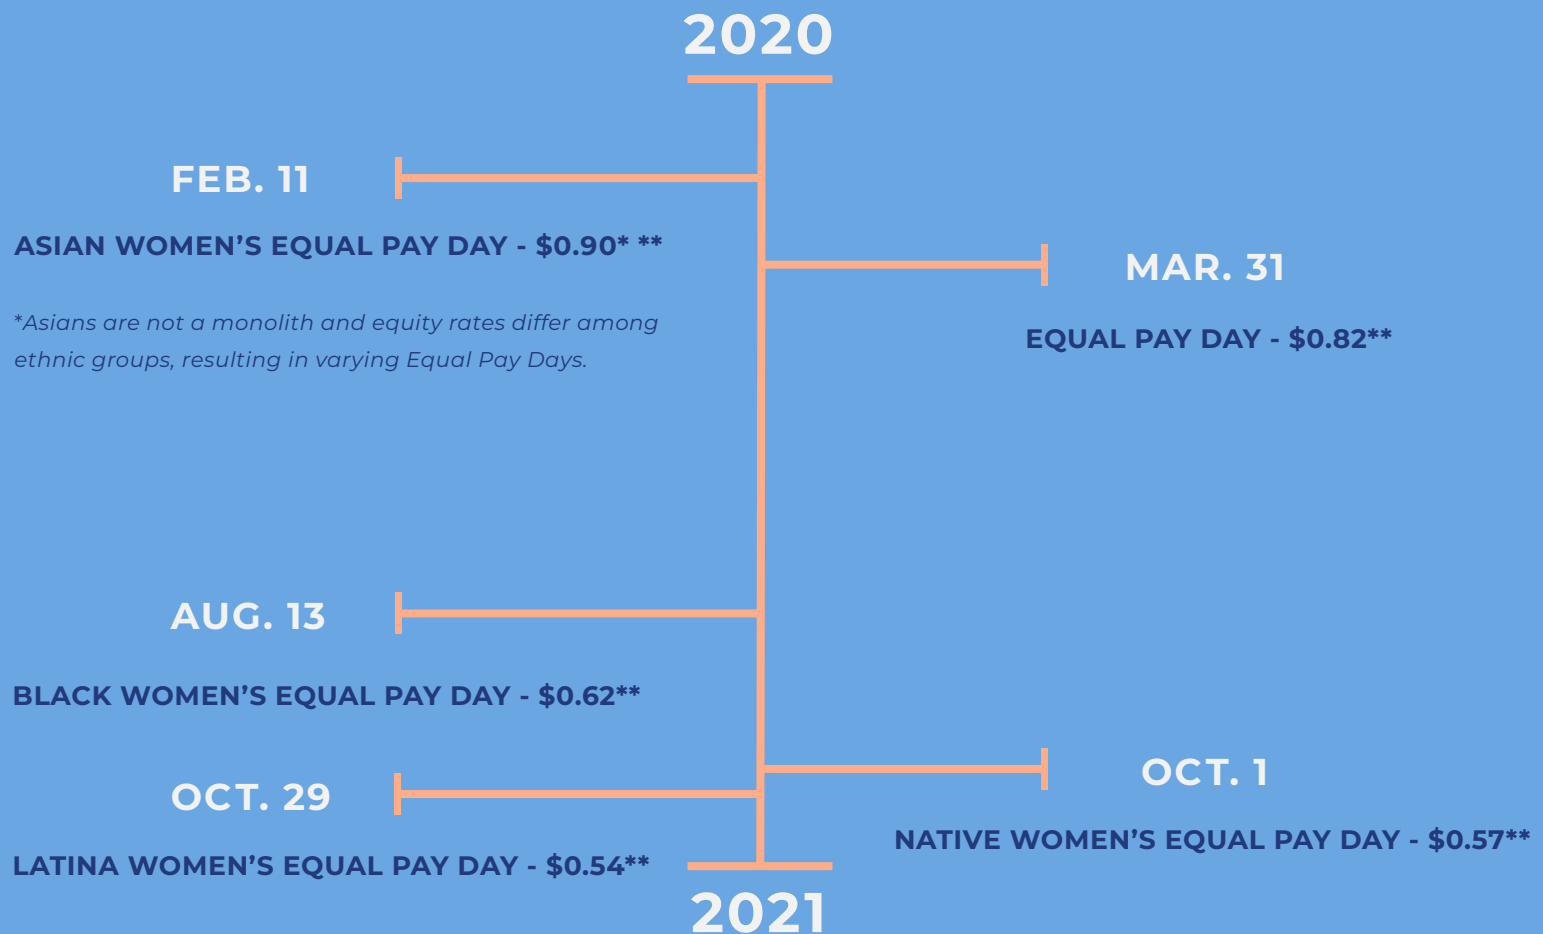

On March 31, we observed Equal Pay Day — a day that symbolized just how far into the year all women must work to earn what men earned in the prior year.

**But did you know that it will take 40 years for Women of Color to reach equity with White men?**

**For WOC, that is far too long.** This is why we support, amplify and celebrate Women of Color in fundraising and philanthropy.

**Join us as we champion Women of Color on the following Equal Pay Days.**

*\*Asians are not a monolith and equity rates differ among ethnic groups, resulting in varying Equal Pay Days.*

*\*\*Earning reflects cents to each \$1.00 earned by White men*
